

# 4 Weeks - End of Month 1

## “My heart is beating!”

Thank you for praying for me. I am one month old now. I have a heart pumping my blood and a backbone. I am very, very tiny and I appreciate your prayers.

Did you know?

- ❖ Your baby is already 10,000 times bigger than at conception
- ❖ He has developed the foundations of his brain, spinal cord, and nervous system by the 20<sup>th</sup> day
- ❖ Your baby's heart began to beat on the 21<sup>st</sup> day
- ❖ His blood type can be different from his mother's
- ❖ Your baby is very vulnerable to abortion during this next month—thanks for your prayers!
